

- SOAN 2410: Human Ecology
- SOAN 4730: Geographic Systems and Archaeology

#### **Natural Science:**

- GEOL 1000: The Physical Earth
- GEOL 2000: Plate Tectonics and Earth History
- GEOL 3300: Hydrology and Chemistry of Natural Waters
- CHEM 1213: General Inorganic Chemistry I and 1211: General Inorganic Chemistry Lab I
- CHEM 1223: General Inorganic Chemistry II and 1221: General Inorganic Chemistry Lab II
- CHEM 3730/Geology 4100: Geochemistry
- BIOL 1010: General Botany
- BIOL 2200: Ecology
- BIOL 3200: Aquatic Biology

**4911 Environmental Studies Seminar (1 sem. hour).** An interdisciplinary colloquium in which students share the results of the environmental research, internship, or field course work they have undertaken as a requirement of the environmental studies concentration. Ordinarily taken in the senior year. Prerequisite or Corequisite: field course, research course, or internship course approved by the director of the concentration. Taken by permission of the instructor.

## **European Studies**

The program in European studies is designed for those students who are keenly interested in European affairs. The major or minor in European studies cuts across traditional departmental and divisional boundaries and allows the student to work with faculty to design a program of study that integrates those aspects of European affairs that best meet the student's interests. European art, business, history, languages, literatures, music, philosophy, and political science are among the areas of study available to students in European studies.

**Requirements for major:** Students complete a major in European studies with a total of 40 semester hours, including the following four components:

- 1. Introductory Course (4 sem. hours).** History 2210: European Civilization Since 1789.
- 2. Language Component.** Students are required to study one European language. In addition to satisfying the B.A. requirement in that language, the European studies major must complete at least twelve semester hours beyond the B.A. requirement in that language.
- 3. Multidisciplinary Component (20 sem. hours).** Students will take twenty semester hours, beyond those described above, from a list of elective courses provided by the director of the European studies program. No more than 12 semester hours may be in the same department. No more than four semester hours may be from the Core. No more than eight semester hours of language courses, beyond those that are required for the European studies major, may be counted as elective courses toward the major.
- 4. Colloquium and Comprehensive Exams (4 sem. hours).** Students will take written and oral examinations administered by the European Studies Committee.

**Requirements for minor:** Students may complete a minor in European studies with a total of 20 semester hours, including the following three components. First, students are required to

study one European language. In addition to satisfying the B.A. requirement in that language, the European studies minor must complete at least eight semester hours beyond the B.A. requirement in that language. Second, minors must complete the Introductory Course for European Studies (History 2210; 4 sem. hours). Third, minors must take eight semester hours, beyond those described above, from a list of elective courses provided by the director of the European studies program. Those two elective courses may not be in the same department, and none of them may be from the Core.

**4000 European Studies Colloquium (4 sem. hours).** An interdisciplinary research forum in which students pursue an individual, directed reading and writing project within their areas of concentration. This project will lead to the completion, during the spring semester of the student's senior year, of an interdisciplinary senior thesis.

Some form of financial aid may be available for certain European studies programs. Students interested in financial aid for any of these programs should contact the financial aid office for more information.

## Faith & Work Initiative

The Faith & Work Initiative challenges students to build lives of long-term meaning and service. It includes both curricular and extracurricular programs aimed at helping students to discern their vocation or call in life and to pursue that call with passion, integrity, and an eye to the needs of the world.

### Requirements for Lilly Interns program:

1. FWRK 2400 (cross-listed as RLST 2400 and PHIL 2750): The Meaning of Work
2. FWRK 3850: Lilly Internship I

### Requirements for Lilly Fellows program:

1. FWRK 2400 (cross-listed as RLST 2400 and PHIL 2750): The Meaning of Work
2. FWRK 3850: Lilly Internship I
3. FWRK 4850: Lilly Internship II or a Sustained Service Commitment (consult with Associate Director)
4. A four-hour Ethics course
5. A Leadership Development project (consult with Associate Director)

## Film Studies

The concentration in film studies draws together several dimensions of film studies to give the student an overview of the main cultural and practical issues in film art.

**Requirements for Area of Concentration:** Five courses are required, all to be approved by the director of the concentration, including: (1) an introduction to film history and theory, normally ENGL 3540 as History of Film or PHIL 2300; (2) a more specialized study of particular film genres, directors, or issues, such as ENGL 3540 as Film and Fiction; and (3) a course in screenwriting or production, such as ENGL 3760, Special Projects in Creative Writing. Various Millsaps courses may be adapted to meet these requirements.

**Questions about Film Studies:** Contact Dr. Steven G. Smith in the philosophy department or Dr. Austin Wilson in the English department.
